“TrueCrypt” Software

FREE open-source disk encryption software for Windows 7, 8, 8.1, 10, Vista, XP, Mac OS X, and Linux

No longer supported by authors. VeraCrypt is now the preferred option. The following references are provided for historical purposes and for those who still prefer to use TrueCrypt.

Review Article: <http://www.pcworld.com/article/231577/truecrypt.html>

UPDATE: The authors of TrueCrypt have pulled the software and it is no longer available for download from their site. At least two other companies have taken over the open-source software, with intent of continuing the TrueCrypt legacy. One of them, VeraCrypt (see above) is now available for download and is recommended by many over TrueCrypt.
